BIO

Ask people to describe Stephanie and you'll hear words like gifted, anointed, strong, loving and joyful, but the title of her latest album offers an especially apt description of the artist —Beautiful. However, Stephanie sees it as more than the title of her album, but an appeal for woman to truly embrace that they are beautiful. "I struggled for many years regarding my worth and my value.

"Beautiful - Songs To Change Your World" brings tears to her eyes, because she can remember the emotional abuse that she suffered from her first husband. Stephanie recounts the countless times her ex-husband cheated on her with other women. Stephanie remembers the pain of being married to someone and wanting to have a child, but not being able to and yet seeing child after child being born by her my ex-husband with other women during their 2 year marriage.

Since then, Stephanie has let the past go. She married an amazing man of God who is a Pastor in 2002. Shortly after being married, God blessed her and her husband with a son named, Isaiah. She has lost over 100 lbs. during the past 4 years and has chosen to move forward.

Singing is not new to Stephanie. She has been in the music and performance industry for more than a decade. She has been the open act Multi-Stellar Award Winner Vickie Winans, Grammy Nominee Helen Baylor, and Grammy Award Winner Nancy Wilson. God has opened many doors for Stephanie in which she is grateful for those opportunities.

Currently Stephanie and her husband are the pastors of Inspire International Ministries located in Mission Viejo, Ca. Her mission in life is to inspire women everywhere to be healed from their past and to fulfill their purpose.
